

#### NOTICE TO THE READER

In the interval since Report No. 4, "Inventory of Archival Sources," was completed in March 1994, some items listed there have been relocated and many new sources have been identified.

For example, Gooderham & Worts records listed as being "G&W On-site" have now been donated to the City of Toronto Archives and records listed as being under the control of the Toronto Harbour Commission are now under the control of the Toronto Port Authority. Individual archival repositories may have changed the precise citations, but the original citations and/or keywords should suffice to find the records.

To ensure the Inventory continues to be relevant and useful to researchers, students and the general public, this supplement is being created. It follows the same structure as Report No. 4 . It will be revised periodically to reflect changes or additions to the base inventory.

Please send suggestions to site historian, Sally Gibson. [sg@thedistillerydistrict.com](mailto:sg@thedistillerydistrict.com)
